

OLIVIA NALWOGA

DATA ANALYTICS | DATA SCIENCE | DATA ENGINEERING

Cottage Grove, MN | nalwogaolivia93@gmail.com | LinkedIn | GitHub

EDUCATION

University of St. Thomas | St. Paul, MN

Expected Dec 2027

Master of Science in Data Science | GPA: 4.0/4.0

Relevant Coursework: Python, Cloud Computing, Database Management Systems & Design, Data Preparation & Analysis, Data Analytics & Visualization, Data Warehousing, Data Lake Engineering, Machine Learning, Artificial Intelligence.

Makerere University | Kampala, Uganda

Dec 2024

Bachelor's Degree in Statistics | GPA: 4.02/5.0

TECHNICAL SKILLS

Programming & Analytics: Python, SQL, Excel, Statistical Analysis, Regression, LASSO, Data Validation, Data Reporting

Databases & Cloud: Oracle SQL Developer, Relational Database Design, Data Modeling, AWS S3

Tools & Systems: Jupyter Notebook, GitHub, Banner, Cognos Analytics Portal, SharePoint, Optix, iCIMS, Alerus, Kobo Toolbox, Microsoft Office

DATA SCIENCE PROJECTS

High-Dimensional Variable Selection in NHANES Health Data | Python / Statistical Learning

Apr 2026 - May 2026

- Analyzed 92,988 NHANES records and 220 variables to develop and evaluate predictive models for hemoglobin levels.
- Applied LASSO regression to reduce 14 candidate predictors to 8 key variables while preserving predictive performance and improving model interpretability.
- Validated model robustness using 1,000 permutation tests and 2,000 bootstrap resamples; compared full and reduced models using test-set MSE.

Job Market & Salary Analytics | Oracle SQL / Database Design

- Designed a normalized relational database with 8 related tables covering job seekers, employers, skills, job postings, applications, and salary data.
- Implemented primary and foreign keys, validation constraints, junction tables, 3 database triggers, and 2 SQL views in Oracle SQL.
- Developed analytical SQL queries to examine salary patterns by skills, education, industry, and application activity.

EXPERIENCE

Graduate Lab Assistant - Computer Systems Support | University of St. Thomas

Aug 2026-Present

- Tutor and assist graduate Data Science students with Python, SQL, and technical course concepts, helping them troubleshoot code and solve data-related problems.
- Provide technical support for desktop operating systems, PCs, lab peripherals, software, and academic technologies in engineering labs and classrooms.
- Troubleshoot hardware, software, and networking issues; support system installation, configuration, maintenance, and escalation of complex problems.
- Collaborate with faculty, graduate students, IT staff, and cross-functional teams on software engineering and data science research activities.

Student Assistant, Human Resources | University of St. Thomas | St. Paul, MN

Dec 2025-Present

- Process and verify student payroll and employment records, maintaining accuracy, confidentiality, and timely completion.
- Perform data entry, auditing, and validation using Banner, SharePoint, Optix, iCIMS, Alerus, and Cognos Analytics Portal; analyze Excel audit reports to identify discrepancies and support accurate records and payments.
- Support student employee onboarding and respond to data and process questions from staff, faculty, and students.

Assistant Planner | Uganda Human Rights Commission | Kampala, Uganda

Jun-Aug 2025

- Designed and administered surveys in Kobo Toolbox and compiled quantitative and qualitative data for organizational reporting.
- Analyzed quarterly data in Excel, conducted validation assessments, and translated findings into insights supporting annual reporting, strategic planning, and operational improvement.

Update Officer / Registration Assistant / Planning Intern | NIRA | Kampala, Uganda

Jun 2023-May 2025

- Registered applicants and updated demographic and biometric records using NIRA systems, emphasizing data accuracy and completeness.
- Supported community data-collection activities and maintained accurate records for registration initiatives.

ADDITIONAL

Generative AI for Students - University of St. Thomas Digital Badge, Mar 2026
